

## PRODUCT SUBMITTAL DATA

### ENGRAVED PLASTIC VALVE TAGS

DESCRIPTION: Durable plastic with contrasting surface & core color layers

USE: For Indoor marking of valves & piping.

COMPLIANCE: ASME (ANSI) a13.1 1981

Craftflex-Flexible Valve Tags are our most popular type of plastic valve tags. Engraved through colored layers to expose rich contrasting text. Excellent for indoor marking needs as well as limited (6-9) months) outdoor durability. Choose from a wide array of colors, sizes, thickness as well as single or double sided engraving. Available in square & round shapes.
